

Adam's Apple Contouring

Type of Procedure : **Body Contouring** (Plastic Surgery Thailand)

[Print version](#)

Plastic Surgery Thailand - Adam's Apple Contouring

Transsexual Sex reassignment surgery/Sex change surgery

"Vaginoplasty (sex reassignment surgery/sex change surgery) is a dramatic and irrevocable final step in male to female gender transition. This step is usually taken only after the deepest introspection and counselling regarding all the options. For those needing complete gender correction, this surgery is a life saving and life enhancing miracle, and can enable them to live a full and joyous life afterwards."

-Facts at a glance-

Surgical Procedure

- Plastic surgery thailand - Adam's Apple Contouring with Dr. Saran Wannachamras bangkok, Thailand.
- The incision is usually 2 to 3 cm in length, and at the highest crease in the skin on the neck, since in most cases the scar is almost imperceptible. The thyroid cartilage is reduced, usually by carving at the most prominent area and the rim of its superior border. The cartilage carving is a delicate process and needs to be done meticulously.

Duration of Operation

- Half hour to one hour.

Risk and Complication

- There is a risk of shaving too much cartilage and affecting the vocal chords that lie just behind the trachea. This may permanently affect the voice.

After Care

- The application of an ice compress to the neck for twenty-four hours lowers the side effects. Occasional hoarseness may occur but it clears up immediately as the swelling subsides.

Recovery

- The recovery takes at least one to two days.

Result

- The appearance a smoother and more feminine neck.

Hospital Admission

- Most patients do not need to stay in the hospital overnight.

Anesthetic

- Local Anesthesia

Pre Operative Care

- Inform us about any allergies, serious medical condition(s), and all medications you are taking (both prescription and non-prescription).
- Avoid aspirin and aspirin-containing medicines for two weeks prior to surgery.

Post Operative Care

- You should avoid abusing your voice, ie. shouting and singing, for two weeks following treatment.
